

# Rebuild Update: Targeted Undergrounding

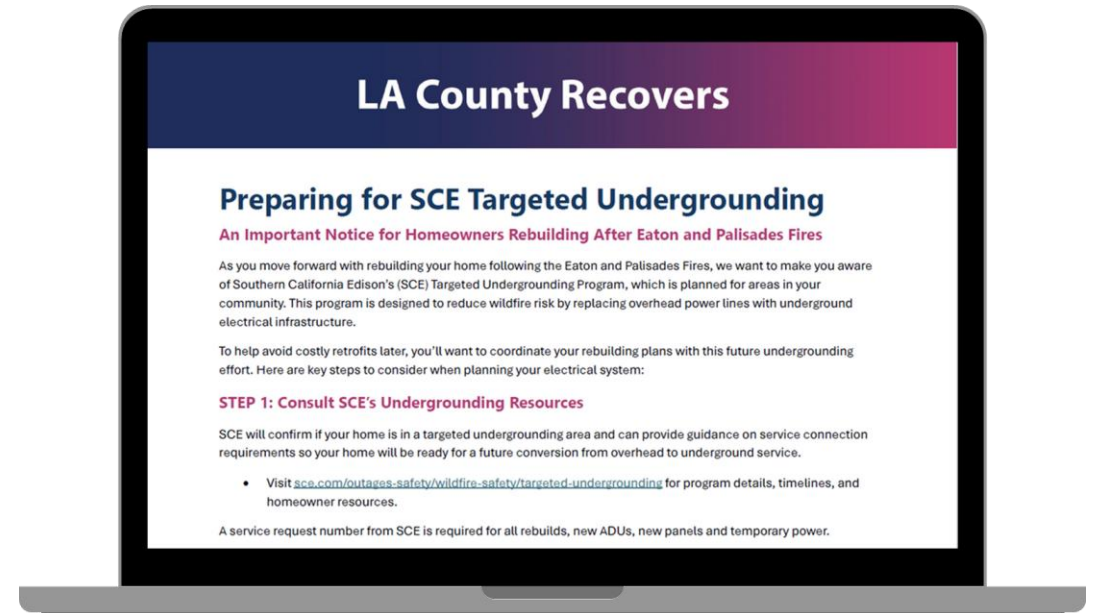

**Presented by:**

**Ciara Barnett, P.E.** – Assistant  
Deputy Director, LA County  
Public Works

# TARGETED UNDERGROUNDING

- Coordinating rebuild plans with future undergrounding efforts will **save you time** and help **avoid costly retrofits** in the future
- New guidance on **how to prepare for upcoming undergrounding** efforts available on our website

 [recovery.lacounty.gov/rebuilding/rebuild-policies](https://recovery.lacounty.gov/rebuilding/rebuild-policies)

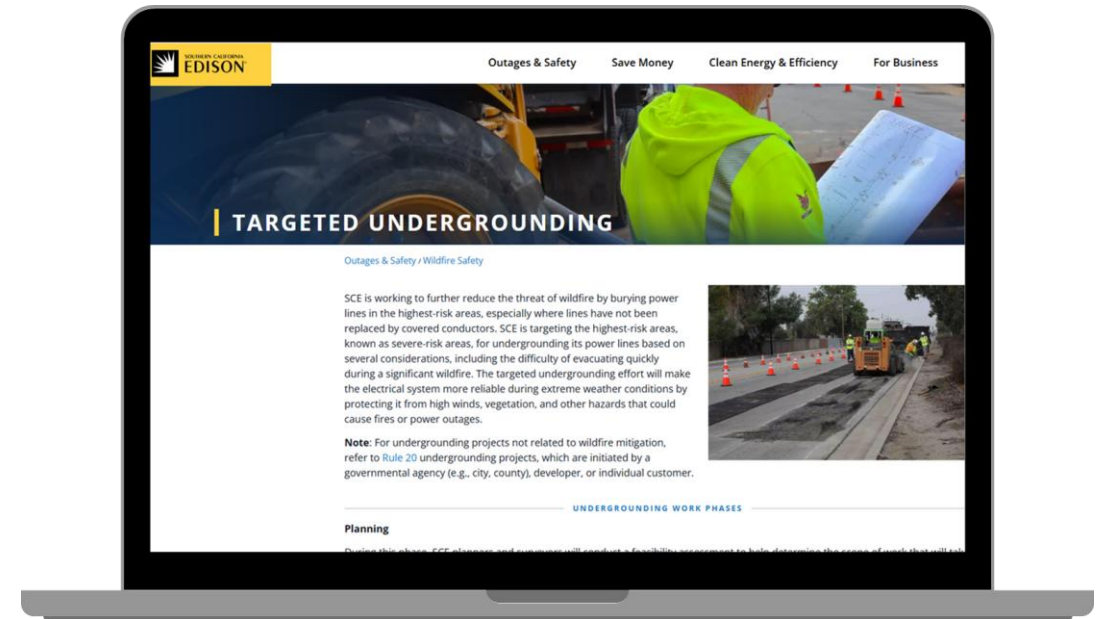

# HOW TO PREPARE

- Install adaptable panels
- Install underground conduit
- Provide preliminary documentation to SCE to obtain a service request number:
  - Preliminary site plan
  - Proposed meter location
  - Estimated load (if available)
  - Service voltage
  - Panel size

# ADDITIONAL RESOURCES

- For in-person support, visit SCE representatives at the Altadena One-Stop Center at **464 W. Woodbury Rd.**
- Visit the **SCE undergrounding website** for program details, timelines, contact information and other homeowner resources
